

CHRONOLOGY

In the academic year of 2000 –2001:

- ◆ The Environmental Management University “ECO ASIA” was founded under the direction of Doctor Adiyasuren Ts, former Minister of Nature and Environment of Mongolia
- ◆ Through educational activities of the ECO ASIA University, Professor Adiyasuren Ts commenced the launching of “User’s Pay Principe”, the reform policy initiated within the frame of socio-economic liberalization of the country by the current Government, where he was worked as the Minister of Nature and Environment.
- ◆ Through new professional opportunities, “ECO ASIA” University launched a update in the training curriculum of Environmental study to prepare human Resource focusing on knowledge dissemination of international & advanced sound technology, reform policy on Environmental Management in Mongolia, which Prof. Adiyasuren Ts had initiated and drafted.

- ◆ **University ECO ASIA is on the mission to promote the Environmental Policy of the country;**
- ◆ **University ECO ASIA is on the mission to ensure the Environmental Management;**
- ◆ **We can do it;**
- ◆ **We are high competent professionals;**

- ◆ We will promote Research and Developments of Environmental Management to establish Sustainable Use of Natural Resources and Environmental Protection. Lead educational activities on a basis of the Integrated Policy for Environment-Socio-Economy
- ◆ Organized selection of human resource and staffed lecturers team
- ◆ Conducted the first concurrent enrolment, at the Opening of academic year, collaborators of prof.Adiaysuren from Ministry Of Nature And Environment acclaimed a warm felicity.

- ◆ The Academic Council of the University was founded, consisting of leading scientists and researchers of Environmental Science in Mongolia.
- ◆ The Action Plan of University Development was formulated and was approved through discussion of the Academic Council .
- ◆ Provided preliminaries for extramural training of Environmental Inspector.
- ◆ Prof. Adiyasuren Ts. was selected as Board Member of Trustee's of Institute for Global Environmental Strategy of Japan, with 12 years term. Thus ECO ASIA University was provided with the possibility to gain an information and knowledge about international policies, approaches on sustainable development and environmental management, as well share information and experience on environmentally sound, advanced technologies.

In the academic year of 2001 – 2002 :

- ◆ Designed Training Programs and Standards for Educational Activities and had been ratified approval of the Ministry of Education, Culture and Science
- ◆ Translated and published the books “Ozone History” and ” There is no Rug Enough To Sweep The Desert Under” with participation of lecturers and students
- ◆ With encouragement of the President Adiyasuren Ts, had edited and published the book “Disaster Management” of the Author Nic Carter, issued by the support UNDP and translated by Boldbaatar L
- ◆ Organized the Olympic competition amongst youth under the theme “Protect Ozone Layer and Environment” for the first time, in cooperation with Mongolian National TV channel
- ◆ Based on the research and investigation output of the lecturers, published the scientific publication “Environmental Monitoring & Management Papers”.
- ◆ “International Seminar on Ozone Layer Protection ” was held in the University campus in cooperation United Nation's Environmental Programme.
- ◆ Developed the Project proposal on “Early Warning System for Disaster Management of Mongolia” in association with EARS of Holland.
- ◆ Conducted the research survey on “Assessment of Ecological Education in Mongolia” under the request of the Institute for Global Environmental Strategy of Japan.

- ◆ “ECO ASIA” University was selected for the Focal Point of Asian Network for UNCCD on “Strengthening Capacity for Mitigating Drought Impact and Desertification Control” TPN5
- ◆ Mr. Philipp de Heer, the Ambassador of the Holland to Mongolia made a introduction visit in the University campus upon the invitation of prof. Adiyasuren Ts, president of the ECO ASIA University.

In the academic year of 2002 – 2003:

- ◆ Designed general subjects of text books, which were published by the University then.
- ◆ In assistance of other researchers, professor Adiyasuren Ts, president of the University had developed and published the textbook on “Remote Sensing and Geographical Information System”.
- ◆ Organized first academic conference of selecting best science articles amongst students.
- ◆ Lecturers carried out the research work and submitted project report “Assessment for Regional Development”, under the coordination of the of Economic Development Institute of the Mongolian Academy of Sciences.
- ◆ Launched project implementation on “Risk Assessment for Livestock of Mongolia” in cooperation with SARMAP/Ecology of Swiss.
- ◆ Team of researchers, leaded by president Adiyasuren published the text book on “Sustainable Development” under the support of UNDP.
- ◆ Organized second Olympic on television under the theme “Protect Ozone Layer and Environment”.
- ◆ First seminar on “Strengthening Capacity for Mitigating Drought Impact and Desertification Control” of TPN Asian network was held in Ulaanbaatar
- ◆ Executed the research survey on “Assessment and Development Ecotourism in Mongolia”, carried out with the request of the Institute for Global Environmental Strategy of Japan.
- ◆ Drafted project proposal on “Train the researchers on Environmental Management and Sustainable Development” and submitted the project proposal to the Holland Embassy

- ◆ Upon the invitation of professor Adiyasuren Ts, Mr. Barsbold, Minister, Ministry of Nature and Environment and Mr. Nyamsambuu, former minister of MNE visited University campus

In the Academic year of 2003 – 2004:

- ◆ Dr. Adiyasuren Ts edited the textbook “Environmental Monitoring” written by Dr. Natsagdorj L.
- ◆ Written the textbook ‘Environmental Auditing’ by Dr. Adiyasuren Ts and Batbayar D for online use.
- ◆ Organized second student academic conference for science articles.
- ◆ The Essay competition was organized under the theme of “Profession, chosen by me” amongst students of the University for the first time and launched selection.
- ◆ Organized First English Olympics amongst students of the University.
- ◆ “Environmental monitoring and management”, second proceeding publication of science articles of lecturers and students was printed.
- ◆ Doctor, Professor Ochirbat P, former President of Mongolia visited University at the invitation of professor Adiyasuren Ts and delivered a lecture to the students.
- ◆ Initiated the activity of “Lecture of Eminent scientists” and several lectures on environmental issues was given by the politicians and scientists such as: professor Adiyasuren Ts, president of University, professor Ochirbat P, former President of Mongolia, Mr. Barsbold, Minister, Ministry of Nature and Environment, Mr. Shiirevdamba Ts, Parliament member and professor Sugita M, “Tsukuba University” of Japan.
- ◆ Established the trend of scientific theory for lecturers’ seminars
- ◆ Launched the investigation project on “The Rangelands- Atmosphere- Hydrosphere- Biosphere Interaction Study Experiment in Northeastern Asia” in cooperation with “TSUKUBO” University of Japan. Lecturer Bayambakhuu L and Students Munkhbat Ts, Erdenetsogt S, Adilbish L were took a part in the field survey.
- ◆ Lecturers of the University worked in the drafting group of Master Plan on “Yellow Sand and Dust Storms”, funded by ADB.
- ◆ Implemented the project on “GATEWAY of Natural Resources and Environmental Data Base” on the basis of the contract, made with UN FAO and put in Internet.

- ◆ Professor Adiyasuren Ts, President of the University was awarded with the Title “Great Minds of 21st Century” by American Biographical Institute.
- ◆ Lecturers of the University was involved in the training project on “Environmental Management and Sustainable Development” at “MAASTRICHT” Management School of Holland between October to December, in 2004

In the academic year of 2005 – 2006:

- ◆ The construction of University campus in 13st Microdistrict was complete and opened its door.
- ◆ The lecturers and students participated in the training, held between 8-24 August 2005, among Mongolian Universities and Institutes under coordination of the GTZ (Germany Technical Assistance) and designed the training programme on Land management study
- ◆ Passed successfully the higher education accreditation process, conducted by Ministry of Education, Culture and Science of Mongolia.
- ◆ Approved the University development Plan and strategic direction for next 4 years.
- ◆ Some of the students were involved in the scholarship programme, financed from the “Development Support Fund” of Korea.
- ◆ The University structure was reformed.
- ◆ Third academic conference for student science articles were organized traditionally.
- ◆ In the frame of “Lecture of Eminent scientists” activity, the Lectures were organized, given by environmental researchers as professor Adiyasuren Ts, president of the University, Mr.Ivata, professor of “SOCO” University and Mr. Kuroda, director of the “Recycling Centre for human resource” of Yamanaichy Prefecture
- ◆ Professor Adiyasuren Ts, president of the University participated in the “Symposium of Eminent Scientist on Environment of Asia Pacific Region“, representing Mongolia and made a presentation under the theme of “Impact of Global Climate Change to the Environment and Socio-Economy in Mongolia” for discussion.
- ◆ Professor Adiyasuren Ts, president of the University and Mr.Gan-Ulzii, executive director attended in the Conference “ International cooperation for Atmosphere

Protection” and made a presentation on “Policy for Air protection in Mongolia” during their attendance at the conference.

- ◆ Executed the survey on Education for Sustainable development and submitted the report to the Asian Center of UNESCO.
- ◆ At the international conference, lecturers of the University delivered a presentations under discussion on investigation results of the project “The Rangelands- Atmosphere- Hydrosphere- Biosphere Interaction Study Experiment in Northeastern Asia” , which was implemented in cooperation of Mongolian hydrometrological Institute and “TSUKUBO” University of Japan.
- ◆ Lecturers of the University, professor Adiyasuren Ts, Mr.Gan-Ulzii, Mrs.Chuluuntsetseg attended in the retraining course of the project “Environmental Management And Sustainable Development”, held between may to June 2005, at ”MAASTRICHT” Management School of Holland.
- ◆ In order to improve environmental management capacity, on September 2005 organized the training workshop on “Environmental Management And Sustainable Development” involving employers of Ministries, Government agencies and business entities, in cooperation with ”MAASTRICHT” Management School of Holland.
- ◆ Representing the Mongolia, professor Adiyasuren Ts, president of the University participated in the opening conference “10th anniversary of International Institute of Education for Sustainable Development, held in China, and delivered the presentation on the issue “Education for sustainable development in Mongolia and in Asia”.
- ◆ Developed the brief history of Asian network for (TPN5) UNCCD Strengthening Capacity Mitigating Drought Impact and Desertification Control and submitted to the Ministry of Nature, Environment and Tourism
- ◆ Celebrated 5th year anniversary of the ECO ASIA University. Professor Adiyasuren Ts, president of the University was prized by the title “Award of Honorable Scientist” and lecturer Sodnom D was prized by “Award of Honorable Production Worker”

In the academic year of 2006 – 2007:

- ◆ Branch faculty was separated from the University “ECO ASIA” and commenced its independent activity.
- ◆ Updated strategic Plan of University development for 4 years term.
- ◆ Several students were involved in the scholarships, funded by the “Zorig” foundation and “Swiss development agency”
- ◆ Lecturers and students participated in the training workshop on August 2005, organized amongst of the Mongolian Land relation Universities, under coordination of GTZ.
- ◆ Dr.Tuvdendorj, head of the Governing board “Eco Asia” University was rewarded with the title “Honored Environmentalist of Mongolia ” by the ordinance of the President of Mongolia.
- ◆ Under the theme of “Ecology and sustainable development”, fourth academic conference of student science articles were organized traditionally in association with Mongolian Student Union .
- ◆ In the frame of “Lecture of Eminent scientists” set activity, it organized lectures of famous researchers constantly, doctors and professors of environmental study in every week Wednesdays.
- ◆ Third proceeding of science articles on “Environmental monitoring and management”, written by lecturers and students was prepared in English in electronic version.
- ◆ Professor Adiyasuren Ts, president of the University and lecturer Altantsetseg N participated in the international conference in the Yosika city of Japan, upon the invitation of Education Center For Sustainable Development.
- ◆ Signed in the Memorandum of “Environmental Cooperation Program for Asia” with International Center for Environmental Technology Transfer (ICETT) of Mie prefecture, Japan
- ◆ Within the framework of project implementation of “Environmental Cooperation Program for Asia” of Environmental Center for Environmental Technology Transfer - ICETT, governing officials of six districts of Ulaanbaatar city were involved in the Training course on Environmental Management for three week in order to develop Environmental Management in Mongolia.
- ◆ Joined to the International Network of environmental youth organization TUNZA/UNEP and commenced relevant launchings as for member.

- ◆ Mr.Gan-Ulzii, executive director of the University was practiced at International Center for Environmental Technology Transfer of Mie prefecture, Japan
- ◆ Professor Adiyasuren Ts, president of the University was awarded by UNEP with title of “Outstanding figure of Ozone Layer Protection “ for his effort.
- ◆ Professor Adiyasuren Ts, president of the University delivered the lecture on “Climate Change of Mongolia and Desertification“ at State University of Israel, named after Ben Guron
- ◆ Environmental Management University “ECO ASIA” became a member organization of Cleaner Production Center under the Mongolian National Chamber of Commerce and Industry.
- ◆ Environmental Management University “ECO ASIA” was rewarded with the title of “GREEN EXCELLENCE” from the Mongolian National Chamber of Commerce and Industry.

In the academic year of 2007 – 2008:

- ◆ Agreed on conducting joint Summer School, involving students of University “ECO ASIA” and University “YOKKAICHI” of Japan and signed in the memorandum.
- ◆ Joint summer school of Students of two University was accomplished successfully in Ulaanbaatar city, and other activities such as student scientific conference, field training, excursion tour, sport game and cultural events were carried out during the summer school.
Six students of University “ECO ASIA delivered a speeches and presentations at the scientific conference.
- ◆ On August 2007, lecturers and students of the university participated in the training workshop on Land Relation, organized under the coordination of GTZ amongst the Mongolian Universities.
- ◆ Mrs.Chuluuntsetseg, manager of training, Mr.Dovchindorj, lecturer were practiced at the International Center for Environmental Technology Transfer of Mie prefecture, Japan
- ◆ With support of Mongolian Student Union, 5th annual academic conference of student science articles was held under the theme of “Ecology and Sustainable development in

a wide range, covering students of Other Universities and agreed in further to name this competition after professor Adiyasuren Ts.

- ◆ Lecturers of the university developed the second chapter on Environmental protection of “Millennium Development Goals of Mongolia” initiated by the President of the Mongolia.
- ◆ Lecturers took a part in a working group of drafting Master Plan for Air Pollution Reduction of Ulaanbaatar city
- ◆ Assisted to the formulation of Master Plan on Environmental Protection of Bayanzurkh district.
- ◆ Lecturers executed the assessment work on Environmental Action Plan of MNET, under the support of World Bank
- ◆ Developed research reports for “Institutional Structures for Environmental Management in Mongolia” of the project on strengthening Environmental Governance Project and submitted to relevant organizations.
- ◆ Environmental Management University “ECO ASIA” was named as “Leading organization” by the governing office of Bayanzurkh district in 2007.

In the academic year of 2008 – 2009:

- ◆ Field training camp of the University was established in the national park of Gorhi Terelj and launched a Firsthand training programme.
- ◆ Launched an implementation of the project “Environmental Management in Universities” incorporating students of “MIE” University of Japan. In the framework of the project Mr.Ono Park, professor of “MIE” University gave a lecture at the university. Lecturers executed environmental assessment of water & air pollution in Ulaanbaatar city in cooperation.
- ◆ 6th annual academic conference of student science articles, named after professor Adiyasuren was held under the theme of “Ecology and Sustainable development under the support of the Mongolian Student Union.
- ◆ In the framework of the project implementation “Environmental Governance Project” coordinated by the UNDP and Ministry of Nature, Environment and tourism, “ECO ASIA” University organized the training workshop on “Environmental Auditing” for three

times, covering employers of administrative organizations, business entities and civil organizations. In this way University has set first step of establishing fundament of Environmental Auditing in Mongolia. Lecturers were participated in the pilot Environmental Auditing project times selected two sites as gold mining, located in the Uyanga soum of Uverkhangai aimag and Central Cleaning Construction of Ulaanbaatar City, executed in the framework of the project “Environmental Governance Project” under the coordination of the UNDP and MNET

- ◆ Lecturers of the University prepared and published the Handbook on Environmental Auditing under the request of the UNDP and MNET
- ◆ Performed background surveys on “Gap Analysis for Management of National Park” , under the support of WWF (World Wildlife Fund)
- ◆ Implemented the joint project on “Environmental Journalist”, collaborated by the MNET, Government of Nederland, Open Society Forum. In order to raise environmental awareness of journalists, organized the workshop among media officers following to the training program, which was covered 24 topics. Thus University Eco Asia have received a high appreciation from the Mongolian Journalist Association. Mr.Baasansuren T, president of MJA, a famous journalist Tsembel D were attended at the closing session of the Workshop.
- ◆ “Handbook on Environmental Journalists”, “Reference book on Environmental” were published and distributed.
- ◆ The USA EPA presented the award “2009 Ozone Layer Protection Award in Recognition of exceptional Contributions to Global Environmental Protection” to professor Adiyasuren Tsokhio, for his leadership effort in Ozone Layer Protection.
- ◆ Implemented the project “Multi-stakeholder partnership building to promote education for sustainable development in Mongolia”, with the encouragement of Institute Global Environmental Strategy, Japan. Stands and posters of information boards for the public awareness center of Khustai National Park was designed.
- ◆ To professor Adiyasuren Tsokhio, president of the University was rewarded with the title “Labor Champion” by the Governance office of Bayanzurkh district.

- ◆ Participated in the execution of joint project “National Strategy for Risk Management and Action Plan of Mongolia“, implemented in the fellowship of the UNEP and the Ministry of Emergency Situations
- ◆ Engaged in the campaign ” Let's fight against climate change together” initiated by the President of Mongolia and “Green” Party

In the academic year of 2009 – 2010:

- ◆ Thematic study groups were arranged amongst students at the University.
- ◆ Launched the implementation of joint project “Education for Sustainable Development” funded by SIDA, in Collaboration National University of Mongolia and Mongolian State University of Education. In the result of the project implementation, the training curriculum of the University was rationalized and reformed.
- ◆ Professor Adiyasuren Ts, president of the University, Mr. Bayanmunkh J, lecturer were presented with speeches while their attendance in the symposium of Research and Investigation Cooperation of the Universities in Northeast Asian Countries, held by Mie University of Japan.
- ◆ Professor Adiyasuren Ts delivered the lecture entitled “Education for sustainable development and Mongolian Tradition” at the meeting, involved the representatives of 15 Universities of 5 Asian countries, which were organized by Mie University of Japan.
- ◆ Within the framework of the project “Education for Sustainable Development”, implemented under the coordination of SIDA at the three Universities of Mongolia as National University of Mongolia, Mongolian State University of Education, “ECO ASIA” University, Mr.Gan-Ulzii, executive director has assisted in the execution of research and program developing tasks on “Applying the Education for Sustainable Development into training context”.
- ◆ 7th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than 34 science articles, presented by 50 students of 15 Universities were discussed during this annual conference.

- ◆ Student Enkhtur, with his presentations win second and third places from the academic conference under the theme “Water as development keystone” organized by the Water Agency of Mongolia, on the occasion of International Water Day celebrating.
- ◆ Mr Damdin, consultant lecturer was rewarded with the title “Honored Environmentalist of Mongolia ” by the ordinance of Mongolian President.
- ◆ Signed officially in the cooperation Memorandum of Understanding on Ecologically Sustainable Development Project in Soum Dashinchilen, Bulgan Aimag, Mongolia, set by the organization “ECO Peace” of Korea and Environmental Management University
- ◆ Completed the draft “legal background for Environmental auditing” and submitted the draft to the MNET.
- ◆ Webpage of the University was reinstalled in the Internet.
- ◆ Professor Adiyasuren Ts, president of the University attended in the Mongolian Economic Forum, held under auspices of the Prime Minister and worked as lector at serial meetings “ Water and Climate change”, “City environment” and ”Green Economy”
- ◆ Signed in the cooperation Memorandum in the frame of the project implementation on “ Mitigation of Transboundary Air Pollution from Coal-Fired Power Plants in Northeast Asia Project” in the in association with “ECO ASIA” University, H&J, Inc, USA and ADB
- ◆ The cooperation Memorandum on “development of Green Economy” was established between “ECO ASIA” University and “Environmental Assets organization “ Ambienta “, Italy.
- ◆ In the framework of the project “Forest Management” implementing in association with Forest Agency of MNET and UNFAO, The Memorandum of Understanding on Capacity Building in Participatory Forest Management was established between the Forest Agency and Environmental University ECO ASIA in order to develop training programme of forest study, prepare textbook a guidance for forest management and improve capacity
- ◆ Developed the report on Climate Change and Human Development in the context of “Human Development Report Of Mongolia- 2010” prepared by Ministry Of Social Welfare And Labour of Mongolia and UNDP

- ◆ Wrote up on license and standardization chapters of the books “ Environmental Master Plan”, “Education for Sustainable Development”, “Environmental Management”, “Environmental Auditing”, issued by MNET, Mongolian Academy of Science and Institute of Geo ecology.
- ◆ Lecturers of the University took a part in the drafting of the chapters on city planning and energy use of the programme “Smokeless Ulaanbaatar”, developed by the Government
- ◆ Undergoes the implementation of the project on “Community –based Wetland Ecosystem Management for Lake Terkhiin Tsagaan Nuur Ramsar wetland in Mongolia”, funded by Ramsar Small Grants Fund For Wetland Conservation And Wise Use.
- ◆ Undergoes the implementation of the Project on “Field Survey Work And Collection Data In Dachinchilen Soum Of The Bulgan Aimag Under Project” and “Ecological Sustainable Development” , with financial support of “Eco Peace Asia” , Korea,
- ◆ 2009, Adiyasuren Ts.Environmental Auditing Training manual, Ulaanbaatar,189 page,

Эрдэнэбаяраа

Үүнээс хойшихыг хийгээрэй гэж би чамд тэр үе днь хэлсэн дээв Би юмыг мартаггүй шүү.

За би мэдэж байгаа ганц нэг юмаа бичлээ. Чи гол гол юмаа нэмээд нөхөөд өгмөөр байнаа

Ядаж арай нэг тасарчихгүй яваад байгаа ухаантай хурлын мэдээгээ гүйцээгээд бичээд өгнө үү

In the academic year of 2010 – 2011:

- ◆ 8th traditional Student Academic Conference, named after professor Adiyasuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than ... science articles, presented by ... students of Universities were discussed during this annual conference.

- ◆ 2010, Adiyasuren Ts. Book on Sustainable and Human Development and Environment in Mongolia. UB, 524 pages.
- ◆ Adiyasuren Ts. Lecture for Biodiversity Conservation Activities in Eco Asia University of Mongolia . , - Asia Pacific Universities International Environmental Forum , 16-18 oct.2010, Nagoya , Japan.

In the academic year of 2011 – 2012:

- ◆ 9th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than ... science articles, presented by ... students ofUniversities were discussed during this annual conference.
- ◆ Adiyasuren Ts. Environmental management, Sustainable and Human Development in Mongolia,2010.Ulaanbaatar,524 pages.
- ◆ Adiyasuren Ts. “Lecture for Global Ecological Crisis and Problems”, Eco Asia University of Mongolia . , - National University of Mongolia, 16 Sep.2011,Ulaanbaatar,Mongolia.

In the academic year of 2012 – 2013:

- ◆ 10th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than science articles, presented by students ofUniversities were discussed during this annual conference.
- ◆ 2012 ,Adiyasuren Ts. Power Plant Less Pollution with Prof Tsien-Oidov J,Jim Chen,UB, 196 pages.
- ◆ 2012 ,Adiyasuren Ts. , Chadraa B., Encyclopedia on Environment ,UB, 196 pages.
- ◆ 2012 ,Adiyasuren Ts.,Gunjee A., Assessment for Project Implementation on Combating desertification in Eastern region of Mongolia , UNDP project. UB, 102 pages.

In the academic year of 2013 – 2014:

- ◆ 11th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than science articles, presented by students of Universities were discussed during this annual conference.
- ◆ 2013,Adiyasuren Ts., Amarsaikhan D., Saandar M., Text book on Remote Sensing and GIS, 4 Edition,UB,312 pages.
- ◆ 2013, Adiyasuren Ts.,Green Development Strategy of Mongolia. “Transittion to Green Civilization” , - Astana Economic Forum. Astana, Kazakstan, 22-24 page.
- ◆ 2013,Adiyasuren Ts., Arid Pastureland Management & Combating Desertification in Mongolia.- UNCCD Special Session. Kubuqi International Desert Forum, 1-3 Aug. 2013. Ordos City, China.
- ◆ 2013,Adiyasuren Ts and others,“Report on Assessment for Pasture Ecosystem’ Condition in Dornod provincy ” , UB, 186 pages.

In the academic year of 2014 – 2015:

- ◆ 12th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than science articles, presented by ... students of Universities were discussed during this annual conference.
- ◆ 2015, Develop and Submit Curriculum for Master Program on “ Study of Nature & Environment “ to the Ministry of Science and Education.
- ◆ 2015, Adiyasuren Ts., Erdenebayar A., Enebish D ,Guidelines for Climate Change Adaptation ,UNDP project., UB,164 pages.

In the academic year of 2015 – 2016:

- ◆ 13th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than science articles, presented by students of Universities were discussed during this annual conference.
- ◆ 2015, Start Master Programm on “ Study of Nature & Environment “.
- ◆ 2015, Develop and Submit Curriculum for Master Program on “ Environmental Monitoring and Assessment “ to the Ministry of Science and Education.

- ◆ 2015, Development Educational Curriculum of Adaptation Climate Change for Mongolian Universities. - Report on Development of Background Recommendation of Kharkhiraа –Turgen, Tes River, Khukh nuur basen for Include on Protected Area
- ◆ 2015, Report on Development of Background Recommendation of Kharkhiraа –Turgen, Tes River, Khukh nuur basen for Include on Protected Area.

In the academic year of 2016 – 2017:

- ◆ 14th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than science articles, presented by students of Universities were discussed during this annual conference.
- ◆ 2016, Start New Master Programm on “ Environmental Monitoring and Assessment “ .
- ◆ 2016, Research for gathering basic information on sustainable management in Orkhonii Khundii National Park and its surrounding pastureland, *Report for consulting services №1*
- ◆ 2016, Research for gathering basic information on sustainable management in KhangainNuruu National Park and its surrounding pastureland, *Report for consulting services №2*
- ◆ 2016 ,Research for gathering basic information on sustainable management in Tarvagatain nuruu National Park and its surrounding pastureland, *Report for consulting services №3*
- ◆ 2016, Research for gathering basic information on sustainable management in Ulaan Taiga Strictly Protected Area and its surrounding pastureland, *Report for consulting services №4*
- ◆ 2016, Research for gathering basic information on sustainable management in Dornod Mongol Strictly Protected Area and its surrounding pastureland, *Report for consulting services №5*
- ◆ 2016, Research for gathering basic information on sustainable management in Mongol Daguur Strictly Protected Area and its surrounding pastureland, *Report for consulting services №6*

- ◆ 2016, Research for gathering basic information on sustainable management in Toson Khulstai Nature Reserve and its surrounding pastureland, *Report for consulting services №7*
- ◆ 2016, Research for gathering basic information on sustainable management in Khustai National Park and its surrounding pastureland, *Report for consulting services №8*

In the academic year of 2017 – 2018:

- ◆ 15th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support of the Mongolian Student Union. More than science articles, presented bystudents of Universities were discussed during this annual conference.
- ◆ Adiyasuren Ts, and others.To Improvement of Pasture Management in Buffer Zone of Some National Parks in Mongolia., Ulaanbaatar,2017, p.210 page,
- ◆ 2017, Develop Basic Document for Expansion of National Park of OnonBalj, NoyonKhngai, Kharyamaat, HuirhonValley ,Tenuun Gol area, Ministry of Environment ant Tourism ,Mongolia
- ◆ Adiyasuren Ts. Lecture on “Caring All life under the Sun” , Ministry of Environment of Mongolia ,16 Sep.2017,Ulaanbaatar,Mongolia.

In the academic year of 2018 – 2019:

- ◆ Adiyasuren Ts. Lecture the Vales of Environment in Mongolia , Eco Asia University of Mongolia . University of Culture & Art of Mongolia,25 May.2018,Ulaanbaatar,Mongolia.
- ◆ Adiyasuren Ts, and others, Reports of Conservation Management in National Parks of Orkhon Valley,Khugne –Tarna and Strictly Protected Area of Zed Khantai ,Bulnai Nuruu of Mongolia., Ulaanbaatar,2018, p.287 pages,
- ◆ 16th traditional Student Academic Conference, named after professor Adiaysuren was organized under the theme of “Ecology and Sustainable development with the support

of the Mongolian Student Union. More than science articles, presented by students of Universities were discussed during this annual conference.

- ◆ 2018, Develop Management plan from 2018 to 2022 for National Park of OrkhonValley , Ministry of Environment ant Tourism ,Mongolia/KfW Germany
- ◆ 2018, Develop Management plan from 2018 to 2022 for National Park of KugneTarna, Ministry of Environment ant Tourism ,Mongolia/KfW Germany
- ◆ 2018, Develop Management plan from 2018 to 2022 for Strictly Protected Area of Zed - Khantai and ButeelMountain , Ministry of Environment ant Tourism ,Mongolia/KfW Germany
- ◆ 2018-2019, Develop Conservation Management plan from 2018 to 2022 for Protected Areas of Sukhbaataraimag,SukhbaatarAimag's Governor Office.
- ◆ Adiyasuren Ts. Lecture on "KEEP COOL AND CARRY ON" , Ministry of Environment of Mongolia ,11 Sep.2018,Ulaanbaatar,Mongolia.
